

# Robot Badges - Collect Them All!

## Wow! What?

Celebrate all your successes by winning a range of badges to add to your robot! These range from achievements in driver/programming skills, becoming the champions of a scrimmage, to winning judged awards. Affix these flash emblems to your mechatronic invention to show your awesomeness; they simply clip on.

### Driver Skills – Easy

Score 20 points in a Driver Skills challenge.

### Programming Skills – Easy

Score 10 points in a Programming Skills challenge.

### Driver Skills – Hard

Score 60 points (TBC) in a Driver Skills challenge.

### Programming Skills – Hard

Score 30 points (TBC) in a Programming Skills challenge.

### Scrimmage Champion

Be one of the teams on the winning alliance.

### Scrimmage Excellence Award

Earn the Excellence Award at a scrimmage for your all-round brilliance.

### Scrimmage Design Award

Earn the Design Award at a scrimmage for your engineering notebook.

## The Fine Print

Your team must be registered on RobotEvents.com to be eligible to earn robot badges. Your robot must be compliant with the official Game Manual, except for minor breaches such as being oversized, where anything beyond the sizing constraints is not functional (your robot would behave the same with any protrusions cut off). You can only win one of each type. These badges are legal decorations as per <R12> in the official Game Manual. They must fit within the robot's size constraints and cannot be used for any purpose beyond that as a decoration.
